

Now hiring an
Licensed Architect
to join our team.

Our firm is continuously influenced and fueled by the nature around us, the creative cohesiveness of our team and the relationship we develop with our clients. We create architecture that accents the landscape in with they are nestled.

We are looking for an experienced and licensed Architect to work with us on our multi-faceted projects. Our work includes custom homes, multi-use commercial buildings, historic renovations and more. Our competitive wages and benefits along with our beautiful location, make this an opportunity not to be missed.

Responsibilities:

- Leading the architectural design process from programming and conceptual design through permitting and construction.
- Conducting thorough zoning and code reviews and lead project regulatory approvals.
- Organizing, preparing, and presenting design concepts and technical solutions to clients.
- Leading and collaborating with project team members and consultants.
- Actively contribute to mentorship, office culture, initiatives, and learning programs.

Qualifications:

- Architectural license
 - Proficiency in Revit, Bluebeam, and Adobe Creative Suite
 - Demonstrated ability to successfully lead the development of construction documents, including technical details
 - Demonstrated experience navigating code and permitting processes
 - Advanced design, visual, and graphic presentation skills including hand sketching
 - Prior experience through all phases of a project from programming to construction
 - Demonstrated experience working effectively with clients, consultants, and contractors
 - 5 or more years of experience in a professional architecture practice
-

We value creativity, a strong work ethic and independence at our firm.
